

FunkyGuitar FULL vs FREE Demo?

STRUM PATCH:

- FunkyGuitar Strum DEMO has just one strum groove, a reduced key range (A3 - C5), you can't change the BPM tempo, only one cabinet simulator and the effect knobs don't work. Wah-Wah effect Works!!! :)

- The Strum FULL has 5 Grooves, an extended key range (G2 - G5), possibility to change the BPM from 85 to 130, EFX.

MUTED PATCH:

- FunkyGuitar Muted DEMO has only one muted groove, a limited key range (C3-G3), only 3 variations (C4-E4), you can't change the BPM tempo, only one cabinet simulator and the effect knobs don't work. Wah-Wah effect Works!!! :)

- The muted FULL has 8 Grooves (4 muted and 4 opened), an extended key range (G2 - B3), 7 muted variations and 7 opened, possibility to change the BPM from 85 to 130, EFX.

GUITAR PATCH:

FunkyGuitar DEMO doesn't have the FunkyGuitar patch which is an entire sampling of a fender stratocaster pickup Mid+Neck with 3 articulations: SlideUP, HammerON and Trills.
